This handbook on social movements, revolution, and social transformation analyzes people’s struggles to bring about social change in the age of globalization. It examines the origins, nature, dynamics, and challenges of such movements as they aim to change dominant social, economic, and political institutions and structures across the globe. Moreover, the term "intersectionality" is not listed in the book index and none of the authors of the 53 chapters refers to this approach in their analysis of dozens of issues important for scholarship. Social movements and intersectionality. Chapter. Nov 2019. Katarzyna Wojnicka. View. In turn, the book provides important insights into the dynamics of social movement mobilisation. Revolution: As said above, revolutionary movements or revolutions seek to overthrow the existing social system itself and replace it with a greatly different one. The communist revolution in Soviet Russia overthrew the Czarist regime and replaced it with the communist system of production and distribution of goods. Religion is a big emotive issue which can flare up in a revolution. Among the social issues the most important is the feeling by a particular group or race that it is not getting its just share in the political set up of the country and that the only alternative is to achieve autonomy or to be separated from the state to which it is coercively bound. If such a group or race occupies a determinate territory, such feeling acquires greater force.
